

ASTRO NEWS

Astrodesign at CES 2026

Astrodesign, Inc. will support a demonstration exhibit at CES 2026, held in Las Vegas, Nevada, USA, from Tuesday, January 6 through Friday, January 9, 2026, at the 8K Association booth. Under the theme "8K120p Optical Transmission Technology," Astrodesign will collaborate on a demonstration of an uncompressed 8K 120Hz ultra-high-definition video system at the Westgate 29th Floor Suite.

Venue: Westgate Las Vegas Resort, 29th

Floor Dates: Jan 6 (Tuesday) – Jan 9 (Friday), 2026

● Exhibited Products

Uncompressed 8K 120Hz Broadcast System

Astrodesign will demonstrate an uncompressed 8K 120Hz broadcast system, featuring a camera system capable of outputting uncompressed 8K 120Hz video in real time, paired with a monitor that can faithfully display 8K 120Hz images. By capturing ultra-high-resolution video and displaying it without compression, this system reproduces images with exceptional clarity and realism, preserving fine details exactly as they are. The solution is suitable for a wide range of applications, including sports broadcasting, live events, and surveillance, where maximum image fidelity is required.
